PROFILE:

I've always been passionate about technology. I studied electronics in high school, where I loved the lab and hands-on activities, as I've always been a more practical person. Unfortunately, due to family difficulties, I was never able to finish the fifth year and graduate.

But thanks to Start2Impact, I rediscovered my passion for technology, and I chose the front-end path because I'm excited by the idea of turning design into engaging digital experiences.

SKILLS:

- **Hard skill:**
 - Html
 - Css
 - Javascript
 - Typescript
 - Angular

LANGUAGES:

- Italiano (native language)
- Rumeno(native language)
- Inglese (intermedium level)

EDUCATION:

Master in Front-End Development – Start2Impact, 2025

A theoretical and practical program with projects reviewed by industry professionals ([Portfolio](#)), which allowed me to develop skills in:

- JavaScript: building logic to make web applications dynamic and interactive
- Angular: a framework for creating dynamic and scalable web applications

The final project involved creating a web app where I developed dashboards to visualize data on global warming.

WORK EXPERIENCE:

Fryer and Dishwasher Operator - Nosh Asian Street Food February 2024 - January 2025

- Contributed to the quality and speed of service.
- Held the role of assistant cook for half a year, with the opportunity to advance to kitchen manager.

Staff/operator fast food- Burger King February 2022 - December 2023

Held the role of manager for a year and a half, contributing to the management of the venue and staff, while developing strong organizational skills and attention to detail.
